Figure 1 – MRN Topical Classification Scheme

### Health Care and Access (301 measures)
- Insurance Coverage and Access to Care (e.g., Lack of Insurance Coverage, Access to Health Professionals) = 27
- Prevention and Early Detection (e.g., Developmental Screening, Well-child Visit, Immunizations) = 120
- Hospitalization (e.g., Emergency Room Use, Inpatient Care) = 31
- Comprehensive and Patient-Centered Care (e.g., Medical Home, Transition Services) = 44
- Treatment Services (e.g., Infection Treatment, Medication Management, Follow-up Care) = 60
- Related Social Services (e.g., Early Intervention Services, Nutrition Services) = 5
- Diagnostic Testing and Screening (e.g., Diagnostic Testing, Accurate Diagnosis) = 14

### Condition Prevalence and Health Status (79 measures)
- Physical Health Conditions (e.g., Diabetes, Asthma) = 27
- Oral Health Conditions (e.g., Tooth Decay, Dental Caries) = 120
- Children with Special Health Care Needs = 31
- Mental and Behavioral Health Conditions (e.g., Autism, Postpartum Depression) = 44
- Overall Health and Well-Being = 60
- Infectious Disease (e.g., HIV, Influenza) = 5
- Non-fatal Injuries (e.g., Motor Vehicle Injuries, Medical Errors) = 14

### Mortality (48 measures)
- All Cause = 23
- Homicide = 1
- Suicide = 3
- Maltreatment/Abuse = 1
- Prenatal and Perinatal Mortality = 6
- Sudden Unexpected Infant Death (SUID) = 4
- Motor Vehicle Mortality = 4
- Surgical and Intensive Care Unit Mortality = 6
- Maternal Mortality = 2

### Social Determinants of Health (288 measures)
- Economic Factors (e.g., Poverty, Employment, Food Security) = 21
- Education (e.g., Maternal Education, School Readiness, School Engagement) = 63
- Social Environment (e.g., Abuse and Neglect, Family Functioning, Discrimination) = 54
- Health Behaviors, Beliefs, and Lifestyles (e.g., Breastfeeding, Physical Activity) = 78
- Physical Environment (e.g., Neighborhood Inequities, Environmental Exposures) = 26
- Policies and Programs (e.g., School Policies and Programs, State Health Policy) = 58
- Prenatal and Perinatal Morbidity (e.g., Gestational Diabetes, Maternal Morbidity) = 4
- Prenatal Experiences and Behaviors (e.g., Alcohol Use, Discrimination During Pregnancy) = 8
- Family Planning and Conception (e.g., Contraceptive Use, Teen Births, Services and Supplies) = 32

### Pregnancy, Birth, and Sexual Health (119 measures)
- Prenatal Care (e.g., Timeliness of Care, Behavioral Health Risk Assessment) = 16
- Reproductive and Sexual Health Care (e.g., HIV tests, Postpartum Care) = 12
- Birth Outcomes (e.g., Low Birthweight, Fetal Alcohol Exposure, Birth Defects) = 31
- Delivery (e.g., Cesarean Delivery, Baby Friendly Hospital) = 16
- Mental, Emotional, and Behavioral Health Conditions = 5
- Treatment and Screening (e.g., Therapy, Follow-up Care, and Overall Treatment) = 19
- Mental Health Behaviors and Experiences (e.g., Disordered Eating, Suicide Attempt) = 4
- Socio-emotional Well-being = 3

### Key Issues/Notes:
* Tier 1 (top row) categories are not mutually exclusive, so numbers in each category will not add up to total number of measures
* Head Start measures are not included in these numbers, as they did not have the necessary technical specifications
* See the Technical Appendix for full Classification Scheme
